Golf Course

Long Point State Park

Wineries

Village of Aurora

Open Fields

Ponds

Moonshine Falls

Moonshine gully and Paines Creek

Carpenter's Falls and little Paine's Creek

Comments and Suggestions

Bring in Small woodlot and Forest Products Speaker

Organize a bus tour of Skaneateles Farm Improvements

Contact Le McBeth, City of Syracuse Water people and Jeff Carmicheal and Steve Nettie (farmer in New Hope Cayuga County but in Skaneateles Watershed)

Put all the business and development in Auburn and the immediate area, they have water and sewage

Encourage the establishment of buffer strips and hedgerows

More retention ponds for road ditches and ag field drainage outflows

Encourage tree planting along rural roads

Encourage natural colors for lakeshore homes

Town can clean ditches at times of low rainfall and when grass has logical chance of re-growth
