Pre-Registration is required by February 18, 2010

What You Will Learn

Get to know why you should be concerned about stormwater. Learn about the DEC Stormwater Construction permit and the requirements of Stormwater Pollution Prevention Plans. Gain valuable knowledge on erosion and sediment control practices and

how to perform site inspections. Discover where you can get technical assistance on erosion and sediment control problems.

Who Should Attend

Contractors • Developers • Construction Site Inspectors • SWPPP Preparers and Reviewers • Code Enforcement Officers • Municipal Engineers • Highway Departments • Planning Boards

Contractors and Site Inspectors are Required to Attend

This workshop will provide the required training for contractors and site inspectors to comply with the SPDES General Permit for Stormwater Discharges from Construction Activity (GP-0-08-001). All individuals responsible for installing, constructing, repairing, maintaining or inspection erosion and sediment control measures or constructing post-construction stormwater management practices at SPDES-permitted construction sites are required to attend a DEC-endorsed 4-hour training course every three years. Construction Site Inspectors who are not licensed as a PE or LA, or certified as a CPESC, are also required to attend.

Please Note

We cannot accept walk-ins or substitutions of personnel as state certifying documents are issued and must be prepared prior to the class.
